

### 3. DECLARATION OF CONTINUING COMPETENCE PROGRAM PARTICIPATION

The *Declaration of CCP Participation* is a statement checked by all registrants annually as part of the online registration renewal process:

*"I solemnly declare:*

*I will maintain my competence with dietetic practice by completing my Self Assessment relative to the Standards of Practice and my Professional Development Plan as approved by the Quality Assurance Committee and Board."*

The Declaration confirms registrants actively take part in the *Continuing Competence Program*.

The Declaration also enables the CDBC to document a registrant's currency under the Mutual Recognition Agreement (MRA) to facilitate workforce mobility across Canada, should she/he choose to practice in another province.

Following receipt of registrants' *Professional Development Plans*:

- The CDBC Practice Advisor will review a random proportion of the Professional Development Plans according to criteria approved by the Quality Assurance Committee.
- Selected registrants will receive feedback about their submission.
