Thank You For Participating in the 2013-14 AGM and 10th Anniversary Celebration!

Thank you to registrants, CDBC Board and committee members and public representatives who attended the Annual General Meeting, Education Sessions and 10th Anniversary Celebration on June 5. You made our 10th AGM a success with over 85 participants on-site and on webcast! The celebration presentation, "CDBC at 10-Years: Past, Present and Future" is full of interesting stories about the College's 10 year history. A video recording of the AGM, Education Sessions and Anniversary Celebration presentations is now available on the College website.

CDBC 2013-14 AGM Feedback and Survey Results

When planning for this year's AGM, the College reviewed the feedback received from last year's AGM survey. As registrants suggested, rather than having only a few speakers, we had a number of guest speakers on a variety of topics. The Education Sessions focused on dietetics and the Anniversary Celebration presentations included Jane Thornthwaite, MLA, and past and present registrants who spoke about the formation and development of the College and its important role in dietetic regulation.

One registrant who attended in person wrote CDBC and said, "It was a very well organized event and I learned a lot. It's always been evident that you have a well-run organization but to hear about the history and hard work that goes into what you do with limited resources... it's even more amazing what you accomplish. My first year as a registered dietitian was the first year of the college so I don't know anything other than CDBC but it's really great to hear where the profession has come from".

A webcast participant wrote after viewing the video segments and said, "Thank you for passing on the video clips and information from the 10 year anniversary... it was really great to be able to view things and feel as though I was there".
Sincere thanks to all registrants who completed this year’s survey. Your feedback is valuable and will help us improve your AGM experience next year.

Jurisprudence Examination for Dietitians (JED) Survey Results
Last month, over 700 registrants who wrote the first Jurisprudence Examination for Dietitians (JED) were invited to complete an online survey to ensure the new program is meeting the College’s goals. There was an excellent response rate with 198 registrants completing the survey (26% of those in the first group). On average, it took participants less than four hours to complete the JED program. Over 60% of the participants found the JED content and examination to be "excellent" or "good" - "learned a lot and found it useful". Over 75% “agreed” or "strongly agreed" that jurisprudence is "important to know" and believed the exam "enhanced one's knowledge of the Dietitians Regulations, CDBC bylaws and scope of dietetic practice". Several respondents said having additional study resources, such as sample questions, case studies or video clips, would be useful. We greatly appreciate your willingness to provide feedback and will take your responses into consideration as we continue to move forward with the JED program.
